

EL&FLEX

**A NEW GENERATION OF POWER
WHEELCHAIRS & SCOOTERS**

WHY CHOOSE ELOFLEX?

With an Eloflex, you can regain control of your life and rediscover the freedom of enjoying walks, trips and excursions in your own car. At last, there's a practical and useful power wheelchair, designed in Sweden by wheelchair users, to make your life easier and more comfortable. Our compact electric wheelchairs and hybrid electric scooters can easily

be stored in a closet or wardrobe. They let you to use regular taxi services, book flights and trains and continue to use your own car or a rental car while on holiday. Eloflex is exactly what all power wheelchairs should be. Experience the difference with Eloflex and reclaim your freedom!

FOLDABLE

Eloflex is a completely new generation of foldable power wheelchairs with a host of unique features. The modern design lets you fold it, one-handed, into a compact size for handy storage at home or in a car. It takes up little space, and the exceptionally low weight makes it easy to take with you. With Eloflex, you reclaim your freedom – a feeling you can take with you anywhere.

EXCEPTIONAL LOW WEIGHT

Sleek and compact, it's also easy to stow in your car for excursions. At last, you don't have to depend on Paratransit and Disability Transportation to arrive. Eloflex gives you your freedom back.

STATE-OF-THE-ART TECHNOLOGY

Eloflex is designed, engineered and manufactured using state-of-the-art technology. It's highly efficient Lithium-Ion batteries are far superior to old lead batteries, both in terms of performance and weight. The powerful brushless and gearless direct drive motors are mounted directly on each wheel, making them both quieter and more efficient than the bulky motors used in traditional electric wheelchairs.

ON THE ROAD

Eloflex foldable electric wheelchairs are perfect for trips, excursion by car and taxi rides to your holiday destination. Now you can visit the grandchildren or family and friends on your own terms.

A NEW GENERATION OF POWER WHEELCHAIRS & SCOOTERS

Eloflex is power wheelchair available in models for all types of people. Regardless of your age or physical condition, Eloflex provides added freedom at home and on the go, eliminating the need for

external assistance. Its lightweight design makes it easy to pack up and take in your car. At last, you will never have to depend on Paratransit or Disability Transit.

INDEPENDENT FREEDOM

It's easy to understand how the Eloflex solution positively impacts the daily lives of so many people. To start with, it offers a foldable lightweight electric solution that's perfect to take in the car and on trips. More importantly, it offers a new level of mobility that previously did not exist due to the non-foldable nature of traditional power wheelchairs, which often weigh between 80 and 150 kg.

With its compact design and high driving comfort, you have virtually no limits on getting around. You can cruise around the park, or head for town to navigate busy shops, cafes and restaurants.

Modern flight-approved batteries mean that you can check in your Eloflex on planes as well.

COMPACT & VERSATILE

Traditional power wheelchairs are typically large, bulky and weigh more than 100kg. This makes them impactable to fit, let alone lift, into a car for excursions. At home, they take up excessive space and are quite clumsy to drive. But it doesn't have to be that way. With their Eloflex represents a completely modern approach to electric wheelchairs, constructed from aluminum or carbon fiber. With a simple hand grip, it can be effortlessly folded, minimizing the space it occupies and leveraging its exceptionally low weight for easy transport in your car.

Due to its compact dimensions, rear-wheel drive and having the same seat design as a manual wheelchair, Eloflex gives you comparable performance. The tight turning radius and high precision let you to effortlessly maneuver into tight spaces and through narrow doors. Eloflex represents a new generation of power wheelchairs, boasting a lightweight frame and a slim width.

Easy to load, a breeze to take with you.

ULTRA LIGHTWEIGHT

Durable design with 2-year warranty.

HIGH QUALITY

Dual batteries for added security.

LONG RANGE

MODEL F

Eloflex F is the market's most sought-after power wheelchair. With unique features like its foldability, compact design, and a lightweight aluminum frame, it has revolutionized the assistive technology sector. The Eloflex Model F has restored freedom to thousands of users who have difficulties walking.

This versatile model is suitable for individuals of all ages, needs and purposes. Its modern technology, featuring powerful brushless motors and dual lithium batteries as standard, provides exceptional driving performance and an impressive range exceeding 30 km.

MODEL P

Eloflex P has a built-in electrical tilt function in the seat, designed to facilitate entry and exit from the chair. This model is intended for people who face difficulties in standing and getting out of a standard chair. With the electric lift, the transition is both easier and safer. Not only does the electric seat lift makes the transition easier but also safer. And it simplifies reaching higher places, such as cabinets and shelves, both at home and in stores.

Model P features a higher seat height compared to our other models, further easing the exit process. As a result, Eloflex P is an excellent choice for slightly taller users, offering a higher seat position and the flexibility to raise the backrest seamlessly.

MODEL D2

Eloflex D2 is an innovative foldable power wheelchair, sporting the same sleek design as our other power wheelchairs but with a smart twist – it can be disassembled into two parts. These two parts provide a loading weight of 14 and 16 kg, making it easier to transport and load the chair into your car trunk.

The stable D2 model accommodates users weighing up to 160 kg and offers comfort and ease of maneuverability. Eloflex D2 empowers you to live an active life, whether it's going for walks, traveling or taking everyday excursions.

MODEL K

Eloflex K is a compact, lightweight, and foldable power wheelchair designed for children and teenagers aged 7 to 15. Model K empowers children and young adults to actively engage in their surroundings, making it easier for them to participate in everyday activities such as school trips, shopping, dining, excursions and visiting friends and family – all without the need for specialized transportation.

The K model boasts a compact and lightweight design, featuring the same elegant aesthetics found in other Eloflex models. The chair is thoughtfully crafted to adapt as its users grow, offering simple height and width adjustments to accommodate a child's evolving requirements. Model K is straightforward to drive, making it possible for children as young as 7 to navigate independently.

MODEL Z

Eloflex Z stands as the most exclusive foldable power wheelchair available, both in our own range and on the market in general. This model is tailored for those who want the “best of the best” and hold their assistive device to the highest standards. Crafted from carbon fiber, the frame ensures an exceptionally low weight of only 23kg. Its format is compact, flexible, and foldable.

The meticulously design features and ingenious details offer the most advanced adjustment options on the market, allowing for optimal individualization. Unrivalled driving performance, an extraordinary range of up to 45 km, and exceptional reliability are just a few examples of the model's unique qualities. Eloflex Z is the electric wheelchair of choice for those who insist on the best and refuse to compromise on anything less than excellence.

ACCESSORIES

Make your Eloflex even more brilliant by customizing it to your individual needs with our popular and smart accessories.

ELOFLEX PREMIUM CUSHIONS

Ease by Eloflex offers a range of Swedish-made ergonomic cushions designed to optimize your Eloflex user experience.

SIDE BAG

With the Eloflex Side Bag, you can conveniently store items like your wallet, phone, and other valuables for easy access.

PROTECTIVE TRAVEL COVER

Our Protective Travel Cover is the perfect accessory for Eloflex power wheelchair enthusiasts who are fussy about their chairs and want to take extra precautions when transporting them.

ADJUSTABLE HEADREST

The Eloflex Headrest is a highly versatile option for extra head and neck support, designed to increase comfort and usability for users with different needs.

ATTENDANT CONTROL SYSTEM

Thanks to our Attendant Control System, individuals walking behind or beside the wheelchair can drive the electric wheelchair with the help of the joystick, allowing the person seated to effortlessly ride along.

JOYSTICK EXTENSIONS

Eloflex offers two variants of joystick extensions to suit a wide range of needs.

CHARGING ADAPTER

The Eloflex Charging Adapter allows you to directly connect the charger to the battery.

ADJUSTABLE FOOTREST

Our Adjustable Footrest allows you to fine-tune the angle of the foot plate anywhere from 0 to 90 degrees.

ELOFLEX RAMPS

Easily load your Eloflex into the car with the help of load ramps that are collapsible and easy to lift.

COMFORT FOR EVERY OCCASION WITH EASE BY ELOFLEX

Prolonged periods of sitting can sometimes lead to discomfort in the back and buttocks, skin irritation, cramps or, in the worst case, pressure sores and ulcers. The ergonomic products in our Ease range help prevent unnecessary discomfort and avoid pressure ulcers. They also provide relief from pain

and alleviate existing issues. With a variety of products to choose from, you can easily get the best support for your arms, neck and back whether at the kitchen table, in front of the TV, in the car, or in a manual wheelchair.

PREMIUM CUSHION - EASE ONE

Ease One is a soft and ultra-comfortable premium cushion designed for people who spend extended periods sitting. The cushion features a bed of coil springs strategically placed under the buttock bones and the tailbone. The contours are also shaped to enhance support and stability for the thighs. Ease One is particularly well-suited for use in electric wheelchairs as its advanced suspension protects the back and tailbone on uneven surfaces.

PREMIUM CUSHION - EASE WEDGE

Ease Wedge is a wedge-shaped seat cushion that is raised at the front. It is specifically designed to enhance the comfort of individuals with longer legs who are seated for longer periods of time. The ergonomic design distributes pressure and offers a soft feeling that relieves both the femurs, the pelvic "sitting bones," and the tailbone.

EASE ARMREST CUSHION

Ease Armrest Cushion is a plush armrest cover designed for your Eloflex. Featuring 1 cm thick, soft foam padding, it protects you from vibrations while reducing the risk of pressure sores and irritation. It also improves stability, preventing your arm from slipping off the armrest.

EASE BACKREST TUBE PADDING

Ease Backrest Tube Padding is a soft foam covering designed for the backrest of your Eloflex. It offers a softer and more pleasant feeling when you lean back in your chair. You also get extra back support and comfort when powering along on uneven surfaces.

EASE LUMBAR SUPPORT

Ease Lumbar Support is designed in firm and durable viscoelastic "memory" foam. Unlike regular foam, memory foam reacts to body heat and pressure, becoming softer and contouring to the lumbar "lower" spine to reduce back fatigue.

EASE INCONTINENCE COVER

Dealing with incontinence while seated in a wheelchair shouldn't be stressful or complicated. Our waterproof incontinence cover simplifies and safeguards your everyday life, providing excellent protection against rain and moisture when you're outdoors.

When life suddenly changes

MARIE FOUND TRUE FREEDOM WITH ELOFLEX

Hopptimisten, or Marie Hav Lunkvist as she is actually called, has a background as an active businesswoman who is currently in a wheelchair due to illness. She sees life as a gift and is filled with both hope and optimism!

I got my Eloflex in February 2018, I had then had other wheelchairs for about six years. I am an active person who travels a lot with lectures and I'm involved in many different community assignments both privately and with the family. I travel to both the mountains and go on archipelago trips, and it became absolutely necessary for me to have a flexible and lightweight electric wheelchair on these occasions.

It is not only when I travel that the Eloflex is with me, but everything from not getting into crowded shops or such an everyday thing as the neighbour's door being too narrow for my regular electric wheelchair, is a memory now. I no longer have to worry about not being able to do what I want, when I want to, and on my own terms. That's freedom for real!
